**WRITTEN STATEMENT OF**  
**MIDCONTINENT COMMUNICATIONS**

August 13, 2014

**VIA ECFS**

Federal Communications Commission  
445 12th Street, S.W.  
Washington, DC 20554

Attn: Ryan Yates, Esq.; Telecommunications Access Policy Division,  
Wireline Competition Bureau

**Re: WC Docket Nos. 10-90, 14-93; DA 14-92;  
Connect America Fund Phase II Challenge**

---

Dear Mr. Yates:

Midcontinent Communications (“**Midcontinent**”) hereby certifies that Midcontinent offers qualifying residential fixed voice and broadband services in the 271 South Dakota census blocks set forth on the attached FCC Form 505. Midcontinent maintains physical plant in each of the relevant census blocks and internal records indicate Midcontinent actually provides residential and commercial voice, video, and broadband service to more than 4,000 customers in those census blocks. Midcontinent demonstrates that it serves these census blocks with voice and broadband services meeting the Commission’s performance and pricing criteria using the following attached evidence, including but not limited to: (i) an example subscriber invoice for each challenged census block (redacted to protect personally identifiable information and CPNI), which confirms actual qualifying service in each census block; (ii) census information, including census block data for each service address, which confirms that the address is located within the challenged census block; (iii) copies of performance and pricing information provided publicly on Midcontinent’s website; and (iv) a copy of Midcontinent’s Internet Service Performance, Terms, and Network Management Disclosure (the “**Network Management Disclosure**”).

1. **Served Census Blocks:** The attached redacted subscriber invoices and associated census information demonstrate that Midcontinent serves each of the challenged census blocks with qualified broadband and voice services as defined by Commission’s standards.
2. **Broadband and Voice Service.**
  - a. **Broadband Speed:** The attached copy of Midcontinent’s Network Management Disclosure confirms that all Midcontinent’s internet service plans provided in the challenged census blocks offer speeds ranging from 149.95 Mbps/19.79Mbps to 12.99Mbps/1.43Mbps. Midcontinent’s broadband service, which is offered in all the challenged census blocks, therefore substantially exceeds the FCC’s speed threshold of at least 4 Mbps downstream and 1 Mbps upstream.
  - b. **Broadband Usage Allowance:** None of Midcontinent’s internet service plans impose limits or “caps” of any kind on customers’ data usage in any service area. The Commission’s 100 GB minimum monthly data usage performance standard

therefore is inapposite to all of Midcontinent's broadband service plans, which vastly exceed the Commission's minimum standards.

- c. **Broadband Latency:** The attached copy of Midcontinent's Network Management Disclosure confirms that Midcontinent's internet service plans have an average latency of 8 to 10ms, depending on the specific service plan, all of which are far below the Commission's maximum 100ms latency performance criterion.
- d. **Broadband and Voice Pricing:** Midcontinent's pricing in the challenged census blocks are "reasonably comparable" under the Commission's standards to prices offered in urban areas for the same or similar services. As reflected in the attached copies of Midcontinent's Network Management Disclosure and its Service and Price Guide, both of which are publicly available on Midcontinent's website ([www.midcocomm.com](http://www.midcocomm.com)), Midcontinent's rates are identical in both the urban and rural census blocks included on the attached FCC Form 505; in fact, Midcontinent offers uniform rates for the most part throughout the entire state of South Dakota. In addition, Midcontinent's rates are less than the FCC's interim benchmark prices: Midcontinent's non-promotional monthly price for voice services starts at \$20.00, which is far below the FCC's voice-services benchmark of \$46.96, and Midcontinent's non-promotional monthly price for qualifying broadband services starts at \$35.95 for MidcoNet Limited (12Mbps/1.2Mbps), which is far below the FCC's benchmark of \$60 for qualifying broadband services.
- e. **Voice Service:** As demonstrated by Midcontinent's attached subscriber invoices and rate cards, Midcontinent itself offers and provides Voice Over Internet Protocol ("VoIP") voice service in the state of South Dakota and in all the census blocks included in the attached FCC Form 505. This also is corroborated by Midcontinent's FCC Form 477, which the Bureau has previously relied on in this proceeding.

In sum, Midcontinent serves all the South Dakota census blocks included on the attached FCC Form 505 with voice and broadband services that far exceed the Commission's performance and pricing criteria. Please contact us if you have any questions regarding the foregoing or any of the evidence attached to Midcontinent's FCC Form 505.

#### **About Midcontinent**

Midcontinent is the largest cable provider in the Dakotas and the nation's eighteenth largest multiple system cable television operator. It is a leading provider of state-of-the-art cable television, high-speed broadband, and advanced communications services to rural America, and serves approximately 313,000 customers in mostly rural areas in North Dakota, South Dakota, Minnesota, and Wisconsin. Of the 317 communities Midcontinent serves, 79% have populations of less than 2,500. Midcontinent offers cable television, high-speed internet, and telephone services across North Dakota and South Dakota, as well as parts of western, northern, and southern Minnesota and western Wisconsin. Midcontinent built South Dakota's first cable

television system in 1967, and has been offering competitive long distance telephone service since 1982 and competitive local telephone service since 1999. Over the past ten years, Midcontinent invested approximately \$313 million in building and upgrading its plant and extensive fiber-optic network to some of the most rural areas in the nation, and since 2010 invested approximately \$30 million to extend over 730 miles of fiber to 18,000 additional homes. Midcontinent offers advanced communications services to 97% of its current homes passed and to all the census blocks included in the attached FCC Form 505.

Respectfully submitted,

/s/

## Internet Service Performance, Terms, and Network Management Disclosure

This disclosure explains the performance characteristics, commercial terms, and network management practices for broadband Internet services provided by Midcontinent Communications® (“Midco” or the “company”). This disclosure may be changed at any time without notice. It is not a contract between Midco® and its customers or any users of the service provided by Midco. This disclosure neither obligates Midco to provide any specific level of service nor to maintain any level of service or network configuration, and it creates no rights that are not already available to a customer or user by law or under any agreement with Midco.

### Performance Characteristics and Pricing

Midco offers the following tiers of service (not all tiers are offered in every area):

Tier	Average Download Speed	Average Upload Speed	Average Latency (ms)	Monthly Price*
MidcoNet® Limited	12.99 Mbps	1.43 Mbps	8	\$35.95
MidcoNet Xstream® Wideband 1.0	60.47 Mbps	6.11 Mbps	10	\$46.95
MidcoNet Xstream® Wideband 2.0	93.45 Mbps	10.45 Mbps	10	\$66.95
MidcoNet Xstream® Wideband 3.0	149.95 Mbps	19.79 Mbps	10	\$106.95

\* Monthly price does not include discounts available for bundled services. MidcoNet Xstream Wideband 2.0 and MidcoNet Xstream Wideband 3.0 are not available in all areas. Check [midcocomm.com](http://midcocomm.com) for services and pricing available in your area.

Tier**	Average Download Speed	Average Upload Speed	Average Latency (ms)	Monthly Price
MidcoNet® Limited	851 Kbps	279 Kbps	16.1	\$30.95
MidcoNet® 1.0	8.456 Mbps	1.043 Mbps	16.1	\$41.95
MidcoNet® 2.0	12.693 Mbps	1.911 Mbps	12.7	\$56.95

\*\* These speeds are available only in the following franchises; Randolph, Vermillion and Hampton, MN.

Pricing and services available for a serviceable area can be obtained either by calling Midcontinent Communications at 1.800.888.1300 or by entering your zip code online at [midcocomm.com](http://midcocomm.com). The price of each service tier includes broadband Internet access, email virus protection and Spam filtering.

Customers may purchase equipment required to use the service, such as a modem, from third parties or may lease the equipment from Midco.

The average download speed, average upload speed and average latency are based on internal testing by Midco during a period from 7:00 p.m. to 11:00 p.m. over a 48-hour period. Speeds available to an individual customer at any given time may vary and are dependent upon a number of factors. Customer speeds also may be affected by network management practices, as described below.

Midcontinent Internet service may be provided by direct fiber connection to some businesses, however for most homes and commercial locations we use DOCSIS cable modem technology running on a hybrid-fiber coaxial cable ("HFC") architecture. Data transmission is bi-directional and asymmetrical, meaning that download speeds (from the Internet) are greater than upload speeds (to the Internet).

Midco's HFC network uses coaxial cable connecting each subscriber's cable modem to an Optical Node, and fiber optic cables connecting the Optical Node, through distribution hubs, to the Cable Modem Termination System ("CMTS"), which is also known as a "data node." The CMTSs are then connected to higher-level routers, which in turn are connected to Midco's Internet backbone facilities. Each CMTS has multiple "ports" that handle traffic coming into and leaving the CMTS. In particular, each cable modem deployed on the Midco network is connected to the CMTS through the ports on the CMTS. These ports can be either "downstream" ports or "upstream" ports, depending on whether they send information to cable modems (downstream) or receive information from cable modems (upstream) attached to the port. Both types of ports can experience congestion that could degrade the broadband experience of our customers.

Midcontinent® Internet service is designed to be a low latency, "always on" service ideal for a wide variety of demanding Internet applications, including real-time applications such as gaming, work-at-home, video streaming, plus the standard web browsing, e-mail, photo uploads, etc. Network maintenance occasionally may be necessary to insure that our network technology grows to meet the increasing demands of our customers. Network maintenance is generally infrequent, brief and usually conducted between the hours of 12:00 a.m. and 6:00 a.m. with notifications provided for interruptions that are expected to have a duration of more than two hours.

### Impact of Specialized Services

Midcontinent Digital Phone service is a specialized voice data service that uses the same network path as our Internet service, although local voice traffic never reaches the Internet and stays within the Midcontinent network. Due to the sensitive nature of phone traffic, it receives special prioritization. This ensures that 911 calls have special priority over web browsing, for example. A phone conversation only requires about 125 kilobits per second of data usage, which is about 1.2% of the capacity of our MidcoNet Xstream® 1.0 upload speed and about 0.4% of the download speed. Voice traffic and voice traffic prioritization do not have a significant impact on Midcontinent's Internet service.

Midco also offers other specialized services using its network facilities, including voice telephone service, video service, and private line services. As Midco's network currently is configured, these services and broadband Internet service are provided over segregated portions of the available bandwidth, and usage of these services does not affect the capacity available for broadband Internet access. Midco, however, may change the allocation of bandwidth at any time in the future, which could either increase or decrease the bandwidth available for broadband Internet access.

### Terms and Conditions of Service

Midco's services are subject to the company's Standard Customer Agreement. This agreement limits the company's liability for service outages and other service-affecting conditions and requires customers, among other things, to pay for the services they purchase; to use the service for lawful purposes; to comply with the company's Acceptable Use Policy; and to return any rented equipment in good condition once they no longer are purchasing service. Customers should read the complete agreement before purchasing services from the company. The full agreement is available at [midcocomm.com/Legal](http://midcocomm.com/Legal). The standard customer agreement may be changed at the company's discretion in accordance with the terms of the agreement.

Midco's services are subject to the company's Acceptable Use Policy. The Acceptable Use Policy, among other things, prohibits use of the service: (1) for unlawful purposes; (2) to harass or defame other individuals; (3) for commercial purposes (if purchased as a residential customer); or (4) to operate a server at the customer's premises unless the customer specifically has purchased a service that permits such a use. Customers should read the entire Acceptable Use Policy before purchasing services from the company. The full Acceptable Use Policy is available at [midcocomm.com/Legal](http://midcocomm.com/Legal). The Acceptable Use Policy may be changed at the company's discretion, with or without notice.

We consider the privacy of our subscribers to be very important, and we are committed to keeping nonpublic personal information about our subscribers secure and confidential. Midco's services are subject to the company's privacy policy for broadband Internet service. Midco's full Privacy Policy is available at [midcocomm.com/Legal](http://midcocomm.com/Legal). The Privacy Policy may be changed at the company's discretion, with or without notice.

Under the privacy policy, Midco may remotely check your computer to the extent necessary for determining whether it is susceptible to unauthorized access or the dissemination of computer viruses. We may also keep records of research concerning subscriber satisfaction with our services, which are obtained from subscriber interviews and questionnaires. In addition, we may have a record of whether you rent or own your home in the event that landlord permission is required prior to installing or maintaining our facilities, and may keep records of violations and alleged violations of the Subscriber Agreement and other rules governing your use of the ISP Service, including, but not limited to, the Acceptable Use Policy. We may sometimes obtain from third parties publicly available information about our subscribers.

The information described in the preceding paragraph is used for purposes such as sending you pertinent information about our services; maintaining and improving the quality of our services; answering questions from subscribers (i.e., for troubleshooting); ensuring compliance with relevant law and contractual provisions; protecting against unauthorized use of the services we provide; marketing cable or other services or products in which you may be interested; and for tax and accounting purposes.

Our system, in delivering and routing the ISP Services, may automatically log information concerning Internet addresses you contact, and the duration of your visits to such addresses. We do not use or disclose any personally identifiable information that may be derived from these logs for marketing, advertising or similar purposes. We, in providing the ISP Service to you, also have access to personally identifiable information about you or your ISP account, including the name and address associated with a given IP address or, possibly, one or more email accounts. You have consented, in your Subscription Agreement, to the collection of personally identifiable information as described in this paragraph.

The company also may collect and store data on usage levels, sites accessed, and other usage characteristics for internal management purposes, including network design, capacity planning and analysis, and implementation of network management practices. Information the company collects or stores may be subject to disclosure to law enforcement and national security officials with appropriate authorization under state or federal law.

## Network Management Practices

The following describes Midco's network management practices of as of the date this disclosure was prepared, and will be updated from time to time as practices are changed. The company reserves the right to take any appropriate measures, whether or not they are described below, in response to extraordinary levels of usage, denial of service attacks, or other exigent circumstances that have a significant effect on our customers' ability to obtain service or the company's ability to provide service.

## Congestion Management Practices

Midcontinent's primary method of managing network congestion is to expand capacity as necessary to meet customer needs. Midco currently uses no congestion management techniques other than our standard levels of service, which limit speed based upon subscription level, and our ongoing work to continually provide enough bandwidth for our customers' needs through network upgrades and speed increases.

## Application-Specific Behavior

Midcontinent does not intentionally block or inhibit any protocol or application-specific traffic.

## Device Attachment Rules

Midco requires that customers use Midco-approved modems (for a list of approved modems, see [midcocomm.com](http://midcocomm.com)) and prohibits the connection of devices that cause harm to the network, compromise security, or are used for illegal purposes. For optimum performance, Midcontinent recommends eight-channel DOCSIS 3.0 modems.

## Security Practices

Midcontinent employs specific security measures in the interest of our customers. Through our customer portal called MyMidco, customers can disable these measures if they choose. By default, all incoming email to MidcoNet servers is scanned for Spam and viruses. If Spam email or a virus is detected, the email message is deleted. Outgoing email is scanned for viruses and deleted if a virus is found. These email security measures apply only to email provided by Midcontinent. Mail traffic from Google accounts, Apple, and others is not subject to these security measures.

Midco seeks to protect customer security by implementing standard security measures, including password requirements for access to customer email and customer account information; limiting access to customer information by customer employees; and maintaining secure servers for customer information and email accounts. Attempts to breach customer information security are addressed based on the nature of the attempt and, depending on the circumstances, responses may include employee discipline, notification to the customer, blocking access to the customer account until security is re-established or other appropriate measures. Midco monitors network activity to determine if there have been any security breaches, and responds appropriately to any breaches. Responses may include suspending or terminating accounts of any customers responsible for such breaches.

## Copyright Infringement Policy

While Midco does not monitor customer webpage views or content of downloads, third parties may notify us of alleged copyright infringement. In those instances, information is gathered independently by copyright holders or their agents. We will pass on the complaint to our customers via email, the United States Postal Service and/or via web alert. Our main purpose is to ensure our customers are aware of alleged and potentially unknown copyright infringement activity and of potential consequences associated with such activity. This information was gathered independently by the copyright holder. Please note that Midco is not a party to complaints such as these. We do not release a customer's identity to a copyright holder unless required to do so by a court order or a valid subpoena, issued by a court with jurisdiction over Midco. If we receive repeated copyright infringement notices for a customer over a period of time and after notifications have been sent to the customer, we may choose to take action up to and including throttling of service or disconnection of service, due to violation of our Acceptable Use Policy.

For more information, please view our Copyright Infringement Policy: [midcocomm.com/Legal](http://midcocomm.com/Legal)

## Complaints and Questions

Complaints and questions concerning this disclosure, the company's services and the company's policies can be sent to the company in these ways:

By email: [netdiscovery@midco.net](mailto:netdiscovery@midco.net)

By mail: Midcontinent Network, 3901 N. Louise Ave., Sioux Falls, SD 57107.

Options for resolving complaints or disputes and questions from end users under Midco's Standard Customer Agreement, Acceptable Use Policy, and Privacy Policy are reflected in those documents and should be directed to the specified contacts in them.

## Midcontinent® Trio Bundles

### ULTIMATE THEATRE TRIO\* .....\$168.85 PER MO.

- Includes Basic and Preferred Cable programming with access to over 200 channels (up to 100 in HD), On Demand, TV Everywhere, the Sports & Variety Package and all four Premium Movie Packages: HBO® + HBOGO®, Cinemax® + MAXGO®, STARZ®/ENCORE®, Showtime® and The Movie Channel™.
- MidcoNet Xstream® Wideband 2.0 Service (Up to 100Mbps download and up to 10Mbps upload\*\*).
- Digital Phone Package Main Phone Line, Unlimited Local and Long-distance Calling\*\*\*, Caller ID† Name and Number, Call Waiting ID, Anonymous Call Rejection, 3-Way Calling, Speed Call 30, Distinctive Ringing, Last Call Return, Call Forwarding Universal, Continuous Redial and Voicemail with eVOICE.

### THEATRE TRIO\* .....\$149.85 PER MO.

- Includes Basic and Preferred Cable programming with access to over 200 channels (up to 100 in HD), On Demand, TV Everywhere, and choice of one Premium Movie Package.
- MidcoNet Xstream® Wideband 1.0 Service (Up to 60Mbps download and up to 6Mbps upload\*\*).
- Digital Phone Package Main Phone Line, Unlimited Local and Long-distance Calling\*\*\*, Caller ID† Name and Number, Call Waiting ID, Anonymous Call Rejection, 3-Way Calling, Speed Call 30, Distinctive Ringing, Last Call Return, Call Forwarding Universal, Continuous Redial and Voicemail with eVOICE.

### PREFERRED TRIO\* .....\$133.85 PER MO.

- Includes Basic and Preferred Cable programming with access to over 200 channels (up to 100 in HD) featuring genres from News, Entertainment, Sports, Kids and Home. Plus access to On Demand and TV Everywhere.
- MidcoNet Xstream® Wideband 1.0 Service (Up to 60Mbps download and up to 6Mbps upload\*\*).
- Digital Phone Package Main Phone Line, Unlimited Local and Long-distance Calling\*\*\*, Caller ID† Name and Number, Call Waiting ID, Anonymous Call Rejection, 3-Way Calling, Speed Call 30, Distinctive Ringing, Last Call Return, Call Forwarding Universal, Continuous Redial and Voicemail with eVOICE.

### BASIC TRIO .....\$108.90 PER MO.

- Basic Cable programming with access up to 72 channels of cable and broadcast programming. Plus access to On Demand and TV Everywhere.
- MidcoNet Xstream® Wideband 1.0 Service (Up to 60Mbps download and up to 6Mbps upload\*\*).
- Basic Local Digital Phone Line.

## Midcontinent® Duo Bundles

### THEATRE SUITE\* & .....\$126.90 PER MO. MIDCONET XSTREAM® WIDEBAND 1.0

### THEATRE SUITE\* & .....\$112.90 PER MO. DIGITAL PHONE PACKAGE

### PREFERRED CABLE\* & .....\$110.90 PER MO. MIDCONET XSTREAM® WIDEBAND 1.0

### BASIC CABLE & .....\$98.90 PER MO. MIDCONET XSTREAM® WIDEBAND 1.0

### DIGITAL PHONE PACKAGE & .....\$74.90 PER MO. MIDCONET XSTREAM® WIDEBAND 1.0

## Midcontinent® Cable TV Equipment

### TIVO WHOLE HOME SOLUTION¹

All the functions of a normal DVR, plus so much more. Connect multiple TVs together through TiVo® Mini and stream content to your Apple® devices with the TiVo® Stream.

TiVo DVR ²	\$16.00 per mo.
TiVo Mini	\$8.00 per mo.
TiVo Stream	\$5.00 per mo.
TiVo Service Fee	\$4.00 per mo.

### DVR/HD RECEIVER LEASE .....\$16.00 PER MO.

Pause, rewind, fast-forward and record all your favorite programs. Includes access to an Interactive Program Guide, On Demand and HD programming, Pay-Per-View and 50 Digital Music channels.

### HD DIGITAL RECEIVER† LEASE .....\$8.00 PER MO.

Includes access to an Interactive Program Guide, On Demand and HD programming, Pay-Per-View and 50 Digital Music channels.

### STANDARD DIGITAL RECEIVER† LEASE .....\$4.00 PER MO.

Includes access to an Interactive Program Guide, On Demand, Pay-Per-View and 50 Digital Music channels.

### OTHER CABLE EQUIPMENT

CableCARD† Lease	\$4.00 per mo.
HD Digital Adapter† Lease	\$2.00 per mo.
Digital Adapter† Lease	\$2.00 per mo.

## Midcontinent® Internet Equipment

Wireless Modem Purchase (DOCSIS 3.0)	\$109.00 each	Wireless Modem Lease	\$5.00 per mo.
Standard Modem Purchase (DOCSIS 3.0)	\$79.00 each	Standard Modem Lease	\$3.00 per mo.

Some restrictions apply. \*Video equipment required to view programming. HDTV and HD equipment are required to view HD channels. On Demand not available in all areas. Channels and services may vary by area. \*\*Actual Internet speeds may vary depending on your computer's capacity and Web traffic. Speeds may also be impacted by third party equipment (such as your computer or router). \*\*\*Unlimited local and long distance calling (up to 5,000 minutes per billing cycle) to the continental U.S., Alaska, Hawaii, Canada, U.S. Virgin Islands, Puerto Rico and Guam. Other locations are considered International and charged at per minute calling rates (please check our website). Calling card calls, collect calls, 900 number calls, operator assisted calls and directory assistance not included. † Caller ID equipment not included. ¹ TiVo® services may not be available in all areas and some restrictions may apply. ² TiVo® DVR requires (at minimum) a MidcoNet Xstream® Wideband 1.0 connection or higher. †Equipment does not include Interactive Program Guide, On Demand or Pay-Per-View capabilities.

## Midcontinent® Cable TV Services

### ULTIMATE THEATRE SUITE\* .....\$113.95 PER MO.

The "Ultimate" in movies and sports. Includes everything in the Basic and Preferred Cable packages, plus the Sports & Variety Packages and all five multi-channel Premium Movie Packages: HBO® + HBOGO® Cinemax® + MAXGO®, STARZ®/ENCORE®, Showtime® and The Movie Channel™.

### THEATRE SUITE\* .....\$84.95 PER MO.

Your ticket to the show! Includes everything from the Basic and Preferred Cable packages, plus your choice of one multi-channel Premium Movie Package!

### PREFERRED CABLE\* .....\$68.95 PER MO.

Includes Basic and Preferred Cable programming with access to over 200 channels (up to 100 in HD) featuring genres from News, Entertainment, Sports, Kids and Home. Plus access to On Demand and TV Everywhere.

### BASIC CABLE .....\$56.95 PER MO.

Basic Cable programming with access up to 72 channels of cable and broadcast programming. Plus access to On Demand and TV Everywhere.

### LIMITED HBO® SUITE\* .....\$26.95 PER MO.

Broadcast TV and Premium movies collide. Plus online access to HBOGO®.

### LIMITED CABLE .....\$19.95 PER MO.

Includes multiple channels of local broadcast programming.

### PREMIUM MOVIE PACKAGES\* .....\$16.00 EACH, PER MO.

- HBO® – Includes access to HBOGO®
- Cinemax® – Includes access to MAXGO®
- STARZ® & ENCORE®
- Showtime®
- The Movie Channel™

### OTHER CABLE SERVICES

Sports & Variety Package\* .....\$6.00 per mo.

Includes additional family, lifestyle and sports digital networks. Sports & Variety channels may vary by area.

Digital Spanish Package\* .....\$4.00 per mo.

Includes up to 15 channels of Spanish language programming.

## MidcoNet Xstream® Wideband Internet Services

### MIDCONET XSTREAM® WIDEBAND 3.0+ .....\$106.95 PER MO.

Up to 200Mbps download and 20Mbps upload\*\*

### MIDCONET XSTREAM® WIDEBAND 2.0+ .....\$66.95 PER MO.

Up to 100Mbps download and 10Mbps upload\*\*

### MIDCONET XSTREAM® WIDEBAND 1.0+ .....\$46.95 PER MO.

Up to 60Mbps download and 6Mbps upload\*\*

### MIDCONET® LIMITED .....\$35.95 PER MO.

Up to 12Mbps download and 1Mbps upload\*\*

\* MidcoNet Xstream® Wideband (or DOCSIS 3.0) modem is required to take full advantage of available speeds. For a full list of approved modems visit [www.midcocomm.com](http://www.midcocomm.com).

## Midcontinent® Digital Phone Services

### DIGITAL PHONE PACKAGE .....\$32.95 PER MO.

Includes eight calling features, voicemail with eVOICE and unlimited\*\*\* local and long distance calling.

### À LA CARTE

Digital Phone Line .....\$20.00 per mo.

Unlimited Local/Long Distance Package\*\*\* .....\$10.95 per mo.

Additional Phone Line .....\$9.95 each, per mo.

Long Distance Calling .....\$0.079 per min.

For International rates visit [midcocomm.com](http://midcocomm.com).

### ADDITIONAL TELEPHONE FEATURES

8 Feature Group Package .....\$9.95 per mo.

3 Feature Group Package .....\$7.95 per mo.

Voicemail with eVOICE .....\$5.95 per mo.

Standard Phone Features .....\$3.95 each

Caller ID: Name & Number with Anonymous Call Rejection, Call Waiting, 3-Way Calling, Speed Call 30, Distinctive Ringing, Last Call Return, Call Forwarding Universal, Continuous Redial, Selective Call Rejection

## Service Fees (non-monthly)

### HOME SERVICE CALLS .....\$50.00

### INSTALLATION .....\$35.00

### EXTRA OUTLETS ADDED .....\$25.00 EACH

### LATE CHARGES .....\$5.00 PER MO.

Accrued for each late payment.

### Create a Bundle and SAVE!

Multiple Service Discounts are available when you bundle MidcoNet Xstream® Wideband, Video and Digital Phone services together. Bundle any two services and get \$5 off, bundle any three services and get \$15 off.
